

Monday June 11, 2018

Ms. Christina Ellis,

I am writing this letter to extend my apologies for how the emergency Site Council meeting that took place last week was a hurtful experience for you. The staff and educators of Thornton Creek School strive to build community with our students, families and colleagues. When we fall short of meeting this expectation, we take responsibility. Our intention is to educate our students and serve our community with kindness and professionalism.

As the instructional leader of Thornton Creek staff, I am expected to model and take responsibility for the behaviors I expect of all staff. Again, I am writing to apologize to you for staff sharing at the May Site Council meeting. In the context of all that was discussed during the meeting, it is my belief that staff sharing offended you. For that offense I apologize to you.

Respectfully,

John Miner

Principal
